## Research Interest and Profile

---

### Economics of Migration, Labour Economics, Applied Microeconometrics and Program Evaluation

I am a Ph.D. candidate with the Department of Economics and Management at the University of Luxembourg (together with the Luxembourg Institute of Socio-Economic Research), focusing on migrant integration and immigration policy. I am interested in migrant effects on and as a result of factors over and above labor market indicators like wage and employment levels, such as labor institutions, entrepreneurial tendencies, and climate consciousness. I am also keen to learn machine learning algorithms for their usage in causal inferencing strategies.

## Education

---

### University of Luxembourg & LISER (DTU ACROSS)

Esch-sur-Alzette, Luxembourg

PhD in Economics

2022 - \_\_\_\_

- Dissertation (prospective): Immigration Policy and Migrant Assimilation
- Advisor: Prof. Dr. Konstantinos Tatsiramos
- **TA Courses:** Labor Economics, Econometrics

### Friedrich-Schiller-Universität Jena

Jena, Germany
